

# QUINTUPLEX 1000HP PUMP

**1000**

MAX BRAKE  
HORSEPOWER

**100K**

MAX BRAKE  
ROD LOAD

**6in**

STROKE  
LENGTH

**4:61:1**

GEAR  
RATIO

## SPECIFICATIONS

- Big brother to T600, providing higher rate and smoother operations along with compatible pump expendables
- Gear box features AGMA Class 10 carburized, hardened and ground gearing
- Compact size allows “back-to-back” mounting within legal width
- Centered crankshaft for improved dynamic balanced mounting

## FLUID END OPTIONS

- Horizontal Monoblock design
- Proprietary forged steel or optional stainless steel
- Sized to fit industry standard power ends
- Durable plunger coating for increased lifespan
- Discharge gauge ports
- Multiple suction manifolds available
- **Contact for rebuild options and individual parts**

**50in**  
LENGTH

**73in**  
WIDTH

**24in**  
HEIGHT

**7040lbs**  
WEIGHT

## HYDRAULIC HP CURVE

With the same compact design as our T600 model, the Q1000 Well Service Pump offers a larger power output within a small footprint. The Q1000 is compact enough to be configured in a back-to-back setup, but packs more power for a range of applications including acidizing, cementing, fracturing, coil tubing support, and snubbing operations.

## PUMP REBUILD PROGRAM

Propell offers a complete rebuild and swing program. Featuring 2250 HP and 2500 HP pumps in stock and ready for exchange. Simply bring us your used pump and exchange it for a rebuilt swing pump.
